DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

> A person shall be entitled to a patent unless –
>
> (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1, 5-8 and 13-17 are rejected under 35 U.S.C. 102(e) as being anticipated by Hadad et al (Hadad).

Hadad discloses a method for modulo multiplication and exponentiation based on Montgomery multiplication wherein a value A in the multiplication is represented in redundant form and carry-save addition is used to compute a new value A (note the abstract and the CSA-Accumulator 410 of Fig. 1B.

Claim Rejections - 35 USC § 112

3. Claims 1-26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1 and 8 "A" in undefined and in claim 18 "S, T and k" are undefined. The steps of claim 2 fail to be clearly related to the steps of claim 1. Similarly note claims 9, 10 and 16. Claims 23, 24 and 26, the wherein phrase of lines 5-7 of claim 18 and the further adapted phrase

of lines 2-3 of claim 25 are the recitation of function without the recitation of the structure that is necessary to perform the functions. Lines 8-9 of claim 18 fail to clear recite the quantities to be added and claim is incomplete because the structure that is necessary to generate the recited quantities fails to be recited.

Allowable Subject Matter

4. Claims 2-4, 9-12 and 18-26 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
